SUMMARY

Bachelor of Science in Computer Science student with expertise in Python, React, web development, 3D game modeling, and mobile app development. Experienced in graphic design, video production, and freelance photography. Passionate about combining technology and creativity to build engaging digital solutions, improve user experiences, and enhance visual storytelling.

EXPERIENCE

Mobile App Developer *(Jan 2025 – Present)*

- Developed a User Profile App using Jetpack Compose with authentication & customization.
- Implemented mobile-first principles and agile development.

3D Game Model Developer (Personal Project) *(2024 – Present)*

- Designed 3D game assets in Blender & Unity, optimizing for performance.
- Created interactive environments and experimented with Python automation.

Graphic Designer & Video Production Specialist *(Jan 2023 – Nov 2024)*

- Designed marketing visuals & animations, increasing engagement.
- Edited high-quality videos using Premiere Pro & After Effects.

Freelance Photographer *(Feb 2023 – Jan 2025)*

- Captured high-quality images, specializing in BTS photography.
 - Maintained professional equipment and archived digital assets.
-

PROJECTS

E-commerce Mobile App (Personal Project) (2024)

- Developed a prototype for an Android e-commerce app using Jetpack Compose.
- Integrated Firebase for real-time database management.
- Designed a seamless shopping cart & checkout system.

AI-Powered Image Recognition System (Academic Project) (2023)

- Implemented a Python-based image recognition model using TensorFlow.
 - Trained the system to classify objects with high accuracy.
-

CERTIFICATIONS

- Android Development with Kotlin – Udemy (2024)
 - Game Development with Unity – Coursera (2024)
 - Software Engineering Program – Teach2Give (2025)
-

SKILLS

- **Programming & Web Development:** Python, Java, JavaScript, React, HTML, CSS
 - **Game Development:** 3D Modeling, Blender, Unity
 - **Graphic Design:** Photoshop, Canva
 - **Video Production:** Premiere Pro, After Effects, capcut
 - **Photography & Editing:** DSLR/Mirrorless, Lightroom, Photoshop
-

EDUCATION

BSc in Computer Science (2022 – 2026)
Meru University of Science and Technology

LANGUAGES

- English & Kiswahili (Fluent)
