PROFESSIONAL SUMMARY

Final-year BSc Computer Science student with hands-on experience in Android and web development. Skilled in Kotlin, Python, and React, with a focus on building scalable, user-friendly applications.

TECHNICAL SKILLS

Languages: Kotlin, Python, Java, JavaScript | Web: React, HTML, CSS

Mobile: Android SDK, Jetpack Compose, Firebase, Google Maps SDK

Tools: Git, GitHub, Android Studio, Agile (Scrum)

TECHNICAL EXPERIENCE

Web & Android App Developer (Projects & Practical Work) | Jan 2025 – Present

- Developed full-stack web applications using React (frontend) and Django (backend)
- Built and tested Android applications using Kotlin and Jetpack Compose
- Implemented authentication, APIs, and real-time features using Firebase and REST services
- Applied Agile (Scrum) practices for iterative development and continuous improvement

PROJECTS

Matatu Monitor System | 2025 – 2026

- Developed a Kotlin Android app tested by 50+ users for real-time transport monitoring
- Integrated Firebase and Google Maps for tracking and notifications
- Implemented crowd-verification with reputation scoring.

Meru County Project Management System (Web App) | 2025

- Built a full-stack system using React and Django to manage and track county-level projects and workflows
- Developed RESTful APIs and integrated frontend with backend services
- Improved accessibility and organization of project data for end users

CERTIFICATIONS

- Android Development with Kotlin – Udemy (2024)
- Software Engineering Program – Teach2Give (2025)

EDUCATION

BSc in Computer Science (2022 – 2026)

Meru University of Science and Technology

LANGUAGES

English & Kiswahili (Fluent)
